

The Puget Sound Chemist

Vol. **IV**, No. 1

Bagley Hall, University of Washington, Seattle

January, 1942

Published by the Puget Sound Section of the American Chemical Society

JANUARY MEETING

On Tuesday, January 20 (one day later than announced in the News Edition), Prof. ARTHUR KNUDSON will address the Section on "NUTRITION and HEALTH". The speaker is professor of physiological chemistry in Albany Medical College, Union University, Albany, N.Y.

Far from being a topic which is in any way dwarfed by national and world happenings, it is one which is very timely. Contributions to health during these times are on a par with providing man power and actual materials. Not only the additional hours but the added strain involved in all war duties jeopardize the national health at a time when it should be most guarded. So, if you have a bad cold, or the flu, stay at home; if not, come out to dinner at the University Commons at 6:30 p.m. Jan. 20. Be sure to send or phone reservations for dinner to the secretary by Monday evening. Telephone MELrose 0630 local 439 or 435 for a good 75¢ dinner.

Professor Knudson's address will be in R 131 Bagley Hall at 8 p.m. It is open to the general public.

★

AUTUMN

In explanation of why no November issue of this bulletin went out, the autumn meetings were limited to the single Presidential visit in October. At that time the duly appointed nominating committee presented a slate of officers who were unopposed by nominations from the floor. Accordingly an unanimous ballot was cast for the following officers: Chairman, W. L. Beuschlein, professor of chemical engineering, University of Washington; Vice-Chairman, Gerald R. Beezer, head of the chemistry department at Seattle College; Secretary-Treasurer, V. Sivertz, University of Washington; Councillors, John L. Kniseley, Laucks Inc., and Rex J. Robinson, University of Washington.

★

CHANGES

Many additions and changes have occurred since the last issue. Late fall arrivals in the Section include Dr. J. L. McCarthy, associate in lignin and cellulose chemistry, University of Washington; Arthur M. Phillips, Fish and Wildlife Service, Leavenworth, Wash.; Harold L. Rudow, Scientific Supplies Co., Seattle. H. S. Madsen, formerly with the Washington State Liquor Control Board, is now with the Food Industries Dept., Corvallis, Ore. New members as of Jan. 1 are: Daniel T. Hayden, Penn Salt Co., Tacoma; John F. Hooper, Olympia; Archie E. Penick, Wenatchee Junior College; John C. Illman, graduate student, U. of W. and Rayonier, Inc., Shelton. Dr. George Cady is one leave of absence from the University doing defense research in the east.

★

MEMBERSHIP

There are now about 150 members in the Puget Sound Section. Nine associate members last year helped bear some of the cost of meetings and bulletins. Herewith is a chance to renew associate membership standing or obtain new members. Members are requested, after making a note on their calendar about dinner next Tuesday, to pass this on to potential members or associate members. Regular application blanks for membership in the Society may be obtained from the Secretary.

I hereby apply for associate membership in the Puget Sound Section of the American Chemical Society. It is distinctly understood that I am not a member of the American Chemical Society. I am enclosing \$2.00 for dues for the year 1942.
